

# Science for Policy, and Policy for Science: Lessons Learned in the Obama White House

» **Date(s):**

March 30, 2017,  
3:00 pm - 4:00 pm

» **Location:**

Georgia Tech  
Hall Building, Room 102

Kei Koizumi, Visiting Scholar at **the American Association for the Advancement of Science**, will talk about science and technology for policy, stressing the importance of scientific and technological advice in policymaking, with real examples and lessons learned at **the White House Office of Science and Technology Policy (OSTP)** and thoughts on what a solid science-advice organization should look like.

Kei Koizumi will also discuss policy for science and technology and innovation, explaining the importance of a central organization at the highest level of government to formulate, implement, and coordinate STI policy, with real examples and lessons learned and some thoughts on what an effective policy organization should look like. The importance of developing and using all the policy tools at one's disposal will be discussed, as well as reflection on the importance of having a policy toolkit and knowing the tools that one can and cannot use to solve problems.

## Kei Koizumi

Visiting Scholar at the American Association  
for the Advancement of Science
