Transition Assistance Request
Continuation of Care Coverage Request

BlueCross BlueShield of Georgia

What is Transition Assistance?

Transition Assistance is for newly enrolled members who wish to continue a relationship with an out-of-network provider they were using prior to enrolling. Blue Cross and Blue Shield of Georgia, Inc. and Blue Cross and Blue Shield Healthcare Plan of Georgia, Inc. (collectively BCBSGa) will offer assistance in locating an in-network provider.

What is Continuation of Care?

Continuation of Care benefits enable you to continue to access physician services and facilities at in-network coverage levels for specified medical and behavioral health conditions for a defined period of time and there are solid clinical reasons preventing immediate transfer of care to another in-network provider.

General Information

You may be eligible to apply for an exception if you are in an active course of treatment for an acute medical condition or serious medical condition.

- **An acute medical condition** is a medical condition that involves a sudden onset of symptoms due to an illness, injury or other medical problem that requires prompt medical attention and that has a limited duration.

- **A serious medical condition** is a condition due to a disease, illness, mental health or substance abuse condition or other medical problem that is serious in nature and that persists without full cure or worsens over time or one that requires ongoing treatment to maintain remission or prevent deterioration.

Here are some examples of medical or behavioral health conditions that may qualify:

- Completing a course of treatment
- In an active course of treatment for cancer
- Pregnant (all trimesters)
- Being treated for a terminal illness; Hospice Care
- Undergoing transplant care or waiting for a transplant
- Being treated for a serious medical or behavioral health condition

Please Note: If you require ongoing care for any chronic condition and you are not in an acute phase of your illness, one requiring a special course of treatment, you should select an in-network provider to meet your ongoing health care needs and you do not need to complete this form. Examples of conditions that do not qualify but are not limited to:

- Routine exams, vaccinations and health assessments
- Stable chronic conditions such as diabetes, arthritis, allergies, depression, asthma, hypertension and glaucoma
- Elective (non-urgent) inpatient and/or outpatient surgery
