

Do you have an entrepreneurial spirit? Do you visualize the future in dollars and cents? Are you ready to prepare yourself for a career in managing the financial success of an engineering and technology powerhouse?

What is the Finance Internship?

The Finance Internship exposes you to the day-to-day functions of a wide range of businesses as you learn what it takes to analyze and manage the financial aspects of a multi-billion dollar company.

In this program, participants observe and learn from Siemens' team of innovators as they hone their skills in business planning, financial analysis, cost analysis, corporate accounting, planning and forecasting, commercial project management, risk assessment and other corporate finance-based roles.

This is a 12-week summer internship program that offers hands-on experience in a real-world working environment.

The internship program is designed to identify top candidates for the full-time rotational Finance Leadership Development Program upon graduation.

Who Should Apply?

We're looking for people who are resourceful –true problem solvers who challenge themselves to find the most effective and efficient solutions to complex challenges. Siemens provides a platform for those who want to have an impact on the future and to contribute to the successes of the company, the customer, and our world.

To apply for the Finance Internship, candidates must meet the following requirements:

- Majors: Accounting, Finance, Business Administration, Economics, MIS or Management with a Finance/Accounting focus
- Education: Current sophomore or junior undergraduate students pursuing a BA from an accredited technical school, college, or university.
- Minimum GPA: 3.0 (3.5+ strongly preferred)
- Availability: Ability to work 40 hours per week from May to August 2019 and ability to re-locate for the internship.
- Relocation: Must be willing to relocate and travel as required by program.
- Work Authorization: Permanent work authorization in the U.S. is required
