

# 2010 LEGISLATIVE PRIORITIES

GEORGIA INSTITUTE OF TECHNOLOGY

- ▶ **Secure \$7 million in bonds** to fund the furnishing and equipping of the Clough Undergraduate Learning Commons.  
*The General Assembly approved final construction funding in FY10 for this multi-purpose academic support facility. This funding will outfit the building for use by students on completion.*
  
- ▶ **Secure \$139.8 million in new Formula Funds** among all USG institutions to adjust for enrollment growth.  
*With the largest student population ever, an increase to these day-to-day operating funds is critical to Tech's maintaining educational quality.*
  
- ▶ **Secure \$75 million in Major Repair and Rehabilitation Funds** among all USG institutions to repair aging facilities.  
*In a period of slow economic growth and construction, funding contributed toward maintaining facilities will allow the Institute to be a good steward of existing public investments.*
  
- ▶ **Secure \$4.5 million** to construct the Eco-Commons water relocation project.  
*The Eco-Commons will help Tech manage its storm water while providing new green space.*
  
- ▶ **Secure renewal** of the provision allowing carry-forward of certain USG funds.  
*Under this provision, Tech can carry certain funds from one fiscal year to the next, allowing for better planning and allocation of resources.*
