

Reacting to and influencing policy in high-risk, high-payoff research within the intelligence community

» Date:

September 6, 2018
3:00 - 4:30 pm

» Location:

Georgia Tech
Stephen C. Hall Bldg
Room 102

In this talk Dr. Dixon will use examples of IARPA research to highlight and discuss the following:

- What is the relationship between strategic intelligence and technology?
- What are the current trends in cutting edge intelligence-related research?
- Does public policy lag technological change?
- How can technology react to policy needs?
- Do researchers envision the need for future policy changes as a result of their research?

More About Stacey Dixon

Dr. Stacey Dixon is the newly appointed Director for the Intelligence Advanced Research Projects Activity (IARPA), having served as Deputy Director since January 2016. Previously she served the National Geospatial-Intelligence Agency (NGA) as Deputy Director of Research and as Chief of Congressional and Intergovernmental Affairs. She has worked on the U.S. House of Representatives Permanent Select Committee on Intelligence (HPSCI) staff, and the National Reconnaissance Office (NRO)'s Advanced Systems and Technology Directorate as a Central Intelligence Agency (CIA) officer. Dr. Dixon holds doctorate and master's degrees in mechanical engineering from the Georgia Institute of Technology, and a bachelor's degree in mechanical engineering from Stanford University. She was a chemical engineering postdoctoral fellow at the University of Minnesota.
