

Supply Chain and Logistics in 2022 and Beyond

Supply chain and logistics is now a common phrase used by everyone around the world. There are many questions about how to capitalize on the expediting of technology, business model, and innovation change that has been exhibited during the past two years. Tim Brown, managing director of the Georgia Tech Supply Chain and Logistics Institute, will moderate a panel of experts with topics of discussion ranging from workforce development and future freight flows to the impact on the economic climate.

Moderator:

Tim Brown, Managing Director, Georgia Tech Supply Chain and Logistics Institute

Panelists:

Mark Ferzacca, Vice President-Warehousing, Matson Logistics Warehousing, Inc.

Brian Greene, Chief Supply Chain Officer, HMTX Industries

Eric Howell, CEO, Port City Logistics

Sandy Lake, Director, Georgia Center of Innovation for Logistics

Cliff Pyron, Chief Commercial Officer, Georgia Ports Authority
