

# It's Up to Us: Policies to Improve Climate Outcomes from Automated Vehicles

» **Date:**

April 1, 2019  
1:30 - 3:00 pm

» **Location:**

Georgia Tech  
Stephen C. Hall Building  
Room 102

Judi Greenwald will be a visiting Technology Policy Fellow at Georgia Tech from April 1 to 12 and is available to meet with interested students, faculty, and staff.

## More About Judi Greenwald

Judi Greenwald served as the Deputy Director for Climate, Environment, and Energy Efficiency in the Department of Energy's Office of Energy Policy and Systems Analysis until January 2017. In this capacity, she oversaw technical, economic, and policy analysis related to climate mitigation and resilience, environmental protection, and energy efficiency. Ms. Greenwald also served as a Senior Advisor to Secretary Moniz for Climate Change. Ms. Greenwald has over 30 years of experience working on energy and environmental policy. Prior to joining EPSA, Ms. Greenwald worked for fifteen years at the Center for Climate and Energy Solutions (formerly the Pew Center on Global Climate Change), most recently serving as the Vice President for Technology and Innovation. There she oversaw the analysis and promotion of technology, business, state, regional and federal innovation in the major sectors that contribute to climate change, including transportation, electric power, buildings, and industry. Earlier in her career, Ms. Greenwald worked as a Congressional Fellow with then-Senate Majority Leader Robert C. Byrd, an environmental scientist with the U.S. Nuclear Regulatory Commission, and an environmental engineer and policy analyst at the Environmental Protection Agency. Ms. Greenwald received a B.S. in Engineering, cum laude, from Princeton University, and an M.A. in Science, Technology and Public Policy from George Washington University.
