

# INTEGRATING CLIMATE CHANGE INTO LONG-RUN MACROECONOMIC ANALYSIS

**Dr. Emanuele  
Masseti**

Assistant Professor, Public  
Policy, Georgia Tech

**NOV 27 - 4 PM**

Krone Engineered Biosystems  
Building, Children's Healthcare  
of Atlanta Seminar Room

In this talk, Dr. Emanuele Massetti, whose main research area is climate change economics, will provide insight into William Nordhaus and Paul Romer's 2018 Nobel Prize in Economics. Dr. Massetti will discuss their work on determinants of economic growth, and particularly Nordhaus' main contribution to economics, the integration of climate change into long-run macroeconomic analysis
