RHA Launches First Residential Advocacy Initiative Targeting Housing Maintenance Request Form

As a part of our first Residential Advocacy initiative, RHA is working to provide feedback to the Department of Housing & Residence Life regarding the current Housing Maintenance Request System. Before we begin formulating specific recommendations, we need your help in gathering data regarding the residential experience with the Housing Maintenance Request System. Below, you'll find a linked form with general questions regarding the maintenance system, space to provide general feedback, and even a section dedicated to explaining specific situations that you have encountered with the maintenance system.

If you have a moment today, please fill out this form with as little or as much information as you would like to and we'll work on the advocacy aspect:
