

THE SCIENCE COMMUNICATION WORKSHOP FOR GRADUATE STUDENTS BY GRADUATE STUDENTS

LEARN. SHARE. INSPIRE.

FIRST ANNUAL ATLANTA COMSCICON

MARCH 1-2, 2018

Calling all STEM Graduate Students!

Are you interested in science communication?

ComSciCon is the national Communicating Science workshop for YOU!! Join us for the first ever annual ComSciCon-Atlanta, one of many local workshops where Students learn and practice valuable skills for communicating their research and scholarship in their field. Adapt to broad and diverse audiences while meeting leaders in technical communication from your region.

Check out our [website](#) and apply now for an opportunity to expand your writing skills and explore innovative strategies for sharing your research and beyond! Applications are competitive, and **due by December 1**.

Our two-day workshop (March 1-2, 2018) will be held at Georgia Tech and features panels exhibiting different sides of science communication such as “Emerging from the Ivory Tower: How to Stay Engaged as a Scientist”, as well as prominent communicators like Dr. Nicole Sharp from the popular science blog [FYFD](#).

Follow us on social media (like [Twitter](#) and [Facebook](#)) to stay in the know!
