

Intercultural Toolbox

Developing Global Competence on an International Campus

Many of us know the “**what**” skills of intercultural competence, but what about the “**how**” skills that help us apply what we know?

This presentation will review emotional, behavioral, and cognitive skills to help you improve communication and put your cultural knowledge into practice with peers, colleagues, and associates from different cultures.

For students, staff, and faculty.

Wednesday, March 9

12-1 p.m.

Smithgall (Flag) Building, Room 117
