

DESIGNING THE FUTURE

GEORGIA TECH STRATEGIC PLAN

Vision

Georgia Tech will define the technological research university of the 21st century. As a result, we will be leaders in influencing major technological, social, and policy decisions that address critical global challenges. “What does Georgia Tech think?” will be a common question in research, business, the media, and government.

Mission

Technological change is fundamental to the advancement of the human condition. The Georgia Tech community—students, staff, faculty, and alumni—will realize our motto of “Progress and Service” through effectiveness and innovation in teaching and learning, our research advances, and entrepreneurship in all sectors of society. We will be leaders in improving the human condition in Georgia, the United States, and around the globe.

Goals

Be among the most highly respected technology focused learning institutions in the world

Sustain and enhance excellence in scholarship and research

Ensure innovation, entrepreneurship and public service are fundamental characteristics of our graduates

Expand our global footprint and influence to ensure that we are graduating good global citizens

Relentlessly pursue institutional effectiveness

Objectives

Prepare our students for global leadership

Innovate to amplify social responsibility and economic impact

Inspire creative and entrepreneurial thinking

Pursue globally significant grand challenges

Explore the role that technology could play as it relates to law

Understand and influence connections between technology and policy

Preserve educational quality while increasing accessibility

Cultivate mutually beneficial partnerships at international, national and local levels

Leverage technology to enhance knowledge transfer and learning

Establish best business and administrative practices
